

REMARKS

The Examiner is requested to approve the accompanying replacement drawing. The changes to the drawings are made to include reference numerals for elements (power electronics 21; steering electronics 22; steering unit 20) recited in the claims. Since these elements are in the original claims which are a part of the specification, no new matter has been added.

Conclusion

The application is considered in good and proper form for allowance, and the Examiner is respectfully requested to pass this application to issue. If, in the opinion of the Examiner, a telephone conference would expedite the prosecution of the subject application, the Examiner is invited to call the undersigned attorney.

Respectfully submitted,
